

ADDITION OF NUMBERS  
BASIC

## Mathematical symbols and addition of numbers

There are many mathematical symbols and their meanings, however the basic symbols for day-to-day operation are as follows.

**+** (Plus/Addition)

**-** (Minus/Subtraction)

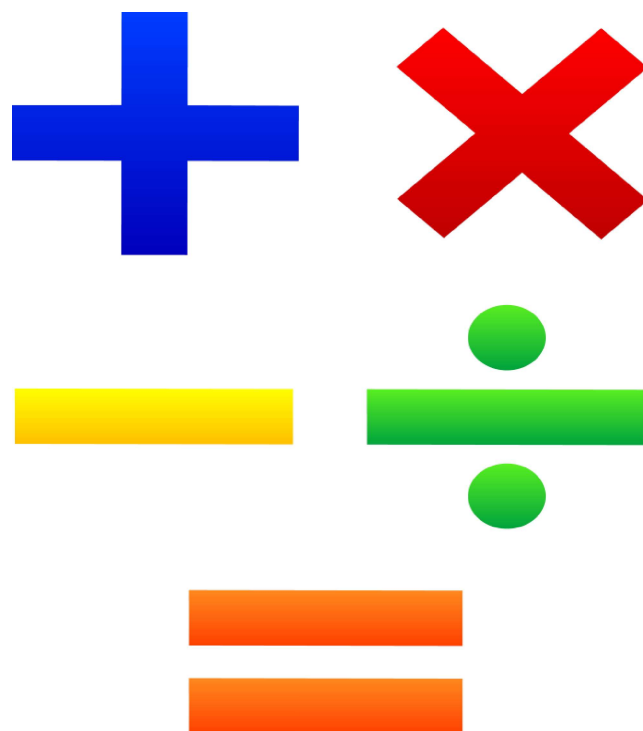

**X** (Multiplication)

**÷** (Division)

**=** (Equals to)

## Numbers from 1 to 100

Basically, in the learning process numbers are shown from 1 to 100 and afterwards a few practices of addition, subtraction, multiplication and division are taught in class.

## Additions table to memorize

Addition table from one to twelve as shown in the tables should be practiced on daily basis and visualize the addition in memories, it will be easy for learner not to write and add in paper and can easily memorize.

We will simply mention numbers here and learners must practice numbers from 1 to 100.
